GSFC (FU) LTD. produces Nylon yarn from caprolactum. I received training here to perform routine chemical analysis e.g. water analysis including dissolve oxygen, turbidity, suspended solids, COD, BOD, density etc, caprolactam analysis, forming different solution with required strength, testing finished product and raw material using UV, moisture, tensile etc.

## EDUCATION

### Bachelor of Science in Chemistry

South Gujarat University India

June 1991 to April 1994

### Bachelor of Education in Science and Maths

IGNOU India

## SKILLS

Microsoft Office (10+ years), Driving (5 years), Team Management (3 years), Chemical Lab Work (2 years), Teaching (10+ years)

## AWARDS

### **SSC**

March 1988

### **HSC**

March 1990

### **Certificate In Computing**

June 1999

computing course

### **Honors diploma in computer science**

August 1999

computer course

### **B.Sc (Chemistry)**

April 1994

### **Bechlor of Education**

2007

science / Maths

## CERTIFICATIONS/LICENSES

### **Driving License B**

November 2015 to November 2025

I have full UK driving licence

## ADDITIONAL INFORMATION

I have worked in the industry as a graduate in Science with Chemistry. I have performed various chemical analyses during my experience. I have also worked in a computer centre, initially as a trainer and then the centre manager which has helped me gain knowledge of MS-office software and some programming skills along with staff and business management. I am very confident in my IT knowledge as well as Chemistry. I have been teaching Science/ Mathematics to students aged 14 years to 16 years (secondary school in India) and KS3/4 (UK). I have an excellent results record. I still possess excellent knowledge of Chemistry/Science with analytical skills.

During my industrial experience I have performed various titrations and worked with advance electronic machines for chemical analyses. This experience in many fields has granted me the confidence of being capable in any condition and in any position.
